

I have SBC DSL which I purchase through a small local ISP. This ISP has provided excellent service. I like having the option of getting broadband internet service through a local ISP. As I understand the petition before you, large phone

companies would no longer be subject to regulatory review of their broadband pricing to independent ISPs like the one I purchase my internet service from. This would effectively price the small ISPs out of the broadband market and limit the choices of internet consumers. Please keep the regulatory review of broadband pricing in place as it is today. Thank you.
